Professional Summary

Results-driven Data Analyst and Data Scientist skilled in Python, SQL, Power BI, and statistical modeling. Experienced in building predictive models, performing data analysis, and creating interactive dashboards to support data-driven decision making.

Skills

- **Programming & Querying:** Python, R, SQL, DAX
- **Data Science & Machine Learning:** Pandas, NumPy, Scikit-learn, TensorFlow, Feature Engineering, Predictive Modeling, Statistical Modeling
- **Data Visualization & BI:** Power BI, Matplotlib, Seaborn, Power Query, Data Visualization
- **Databases & Tools:** SQL Server, MySQL, Microsoft Excel, Statistical Analysis, Regression Analysis

Projects

Coca-Cola Product Analysis Dashboard – Power BI

[View Project](#)

- Designed an interactive KPI dashboard to analyze product performance across brands and regions using Power Query and DAX.
- Created visualizations for sales volume, regional distribution, pricing, and profit trends to support business decisions.

Time Series Forecast of UAN32 NOLA Fertilizer Price – Python

[View Project](#)

- Built SARIMAX models with exogenous variables to forecast fertilizer prices, capturing seasonality and market drivers.
- Achieved RMSE of 10.33 and MAE of 7.15; generated accurate 12-week price forecasts.

College Student Database – SQL Server

[View Project](#)

- Designed a relational database schema using DDL, DML, joins, subqueries, and CTEs.
- Developed optimized analytical queries for academic performance reporting and insights.

Education

M.Sc. in Applied Statistics and Data Science

[Jahangirnagar University](#)

Relevant Coursework: Advanced Statistical Modeling, Data Visualization, Machine Learning

B.Sc. (Hons) in Statistics

[Khulna University](#)

Relevant Coursework: Regression Analysis, Hypothesis Testing, Probability

Certifications

- Python for Data Science, AI & Development – Coursera [Verify](#)
- Data Analytics and Power BI Career Path – Interactive Cares [Verify](#)
- SQL (Basic) – HackerRank [Verify](#)
